

1-DAY TRAINING COURSE

Fit2Fit Approved Quantitative Train the Tester

Our fit2fit approved quantitative (Ambient Particle Counting) 1 day train the tester course is for those who want to test SCBA, full-face, disposable and re-usable half mask respirators.

The fit2fit approval scheme requires the course content to be submitted to fit2fit, the course is scrutinised to ensure that what we deliver is fully compliant with the HSE's guidance and protocols.

Why Choose TTS?

We are one of the leading providers of approved train the tester courses in the UK and we are one of only a handful of training companies to have our courses approved.

Our quantitative train the tester is a 1 day course, we can teach on the full range of ambient particle counting machines that are currently available: AccuFIT 9000, 9000 Pro, TSI PortaCount 8030, 8038, 8040 or 8048.

If you want to become a fit2fit accredited tester after you have completed this course then we will give you free mentoring and guidance to help you achieve this.

Our face fit testing instructors are: qualified, insured, accredited and experienced face fit testers.

All learners will have the skills, knowledge and resources to successfully deliver your own quantitative respirator face fit testing.

Duration

A 1 day course in the classroom and carrying out practical quantitative face fit testing.

Syllabus

A range of subjects as per the requirements of INDG479 are covered including:-

- Background to Face Fit Testing
- Legislation and Guidance, INDG 479, HSG53 etc.
- Installation and Operation of Equipment
- Sampling from the Facepiece
- Fit Test Protocols and Pass Levels
- Set-up and Running Procedures
- Practical face fit testing
- Troubleshooting & Problem Solving
- Fit Test Failures and Re-Tests
- Planning & Managing a Fit Testing Program
- Data Handling and Storage

We will Provide you with all of your Resources

Certificate templates, fit test forms etc. and provide you with on-going support and guidance.

Certification

Practical assessment is on-going by the instructor, a fit2fit approved train the tester certificate will be issued, this does not make you a fit2fit accredited tester, no training course can do this.

Numbers

A maximum of 4 students on-site and a maximum of 4 students in our training centres are allowed and a certificate can be issued to all, subject to assessment.
